

Beat the final boss faster with the **Phison-powered E18 SSD**

Whether you are alone in the shadows or a far away galaxy in a squadron, we ENHANCE your game experience.

PS5018-E18

E18 is our second generation PCIe Gen 4 NVMe SSD flagship gaming controller. It is the only one in the market to-date to deliver a power-efficient 7400/7000MB/s performance.
