

Dear Investor/Analyst/Shareholder,

Thank you for your support for Phison (8299TT). Please see the details of our January 2022 revenue below:

Phison Electronics (8299TT), a leading manufacturer of NAND controller and NAND storage solution, announced its operating results for January 2022 today (2/10), with consolidated revenue of NT\$5.419 billion, an increase of nearly 34% (YoY) over the same period last year, a record high for the same period.

<b>PHISON 8299TT</b>	<b>Sales Revenue (NT\$bn)</b>	<b>YoY</b>	<b>Remarks</b>
January 2022	5.419	34 %	Record high over the same period

Compared with the same period last year (YoY), the total shipments of PCIe SSD controllers in January increased by more than 110%, and the total shipments of industrial-grade controllers increased by more than 120%, and the annual cumulative total memory bit shipments (Total Bits) also increased by nearly 26%, all hitting a record high for the same period.

<b>PHISON 2021 Business Highlights</b>	<b>YoY</b>	<b>Remark</b>
Total shipments of PCIe SSD controller	110 %	Record high over the same period
Total shipments of industrial-grade controller	120 %	Record high over the same period
Cumulative total memory shipments (Total Bits) for 2021	26 %	Record high over the same period

K.S.Pua, CEO of Phison, explained that with the efforts of all colleagues of Phison, a record revenue of NT\$62.557 billion was achieved in 2021. Due to the challenges of tight wafer foundry capacity, insufficient NAND supply, and rising prices of upstream and downstream raw materials and suppliers in 2021, Phison has also prepared resources in advance to meet the unlimited demand of the NAND industry driven by the trend of digital transformation in 2022. In addition, especially in the high-end application market, Phison will launch a new enterprise-level SSD storage solution and PCIe Gen5 SSD flagship controller this year, and will continue to build Phison's leading fleet in the high-end storage application market.

K.S.Pua then emphasized that 2022 will be a year for Phison to grow and thrive again. Through Phison's 5+5 growth strategy, Phison will penetrate into various NAND storage application fields in an all-round way. On the basis of Phison's unique flexible business model and highly customized capabilities, it continues to strengthen its R&D capacity to meet the demands of global customers. Looking forward to 2022, Phison will also stand

firm on the current operating foundation and continue to deepen the transformation of high-end NAND storage applications, hoping to create another peak in revenue and profit.

**[PHISON's Quick Facts]**

- Over 20 years experiences in NAND controller IC design and module integration.
- Over 3,000 employees globally, and more than 70% are engineers.
- Nearly 2,000 memory-related patents globally.
- Target long-term revenue of NT\$100 billion through the 5+5 growth strategy

- Exceeds 20% of the global market share of SSD controllers
- \$1.64B sales revenue in 2020.
- [Unique business model](#) that can produce consistently strong cashflow and profits over long-term NAND memory market cycles.
- Committed to maintaining long-term partnerships with our global NAND flash supply sources and with our downstream module customers

### **[About PHISON]**

Phison Electronics Corp. (TPEX:8299) is a global leader in NAND Flash controller IC and storage solutions. We provide a variety of services from controller design, system integration, IP licensing to total turnkey solutions, covering applications across SSD (PCIe/SATA/PATA), eMMC, UFS, SD and USB interfaces, reaching out to consumer, industrial and enterprise markets. As an active member of industry associations, Phison is on the Board of Directors for SDA, ONFI, UFSA and a contributor for JEDEC, PCI-SIG, MIPI, NVMe and IEEE-SA.
