

Dear Investor/Analyst/Shareholder,

Thank you for your support for Phison (8299TT). Please see the details of our May 2022 revenue below:

Phison Electronics (8299TT), a leading manufacturer of NAND controllers and NAND storage solutions, announced today (6/10, Taiwan) its operating results for May 2022, with consolidated revenue of NT\$5.099 billion. The annual cumulative revenue reached NT\$28.107 billion in May, with an annual growth rate of 18% (YoY), a new high for the same period.

PHISON 8299TT	Sales Revenue (NT\$bn)	YoY	Remarks
May 2022	5.099	-10 %	
Jan. to May 2022	28.107	18 %	Record high for the same period

Compared with the same period last year (YoY), the total shipments of PCIe SSD controllers in May increased by nearly 7%, and the total shipments of industrial-grade controllers increased by nearly 38%, continuing to grow steadily. In addition, the total shipments of PCIe SSD controllers from the year to May increased by nearly 50% year-on-year, and the total memory bits shipments (Total Bits) also increased by nearly 5%, both hitting new highs for the same period in history.

PHISON May 2022 Business Highlights	YoY	Remark
Total shipments of PCIe SSD controller	7 %	
Total shipments of industrial-grade controller	38 %	
Jan. to May 2022 of total shipments of PCIe SSD controller	50 %	Record high over the same period
Jan. to May 2022 of total NAND shipments (Total Bits)	5 %	Record high over the same period

K.S.Pua, CEO of Phison, explained that the regional lockdown caused by the epidemic has affected the Supply Chain and the Sales Chain, including factory shutdown, transportation difficulties, and consumers unable to purchase goods, etc.; coupled with inflation, the prices of various commodities have also risen, which ultimately affects the purchase intention of end consumers or customers. These factors have indeed had varying degrees of impact on industries and companies around the world.

K.S.Pua went on to explain that because Phison has accumulated more than 20 years of experience in the NAND industry, it is better able to grasp the pulse of the market and business opportunities than its peers. In addition, Phison also reserves energy when market demand slows down to prepare for the next wave of market recovery. Based on

past experience and records, Phison can not only stand firm in the downturn, but also outperform its peers when the boom turns upward. This is the advantage of Phison and the success of its transformation. Although there are still many uncertainties in the coming quarters, Phison will continue to work closely with global customers and suppliers, and achieve new heights through Phison's diversified strategy and strong technological leadership.

### [PHISON's Quick Facts]

- Over 20 years experiences in NAND controller IC design and module integration.
- Over 3,400 employees globally, and more than 70% are engineers.
- Nearly 2,000 memory-related patents globally.
- Target long-term revenue of over NT\$100 billion through the 5+5 growth strategy
- Exceeds 20% of the global market share of SSD controllers
- US\$2.23B sales revenue in 2021.
- [Unique business model](#) that can produce consistently strong cashflow and profits over long-term NAND memory market cycles.
- Committed to maintaining long-term partnerships with our global NAND flash supply sources and with our downstream module customers

### [About PHISON]

Phison Electronics Corp. (TPEX:8299) is a global leader in NAND Flash controller IC and storage solutions. We provide a variety of services from controller design, system integration, IP licensing to total turnkey solutions, covering applications across SSD (PCIe/SATA/PATA), eMMC, UFS, SD and USB interfaces, reaching out to consumer, industrial and enterprise markets. As an active member of industry associations, Phison is on the Board of Directors for SDA, ONFI, UFSA and a contributor for JEDEC, PCI-SIG, MIPI, NVMe and IEEE-SA.
